

Villa for sale in Mijas Costa, Costa del Sol

4 Bedrooms | 4 Bathrooms | 71 m² Terraces | **Garage** Yes | **Garden** Yes | **Pool** Yes |

Property Description

Edén is harmony between architecture and landscape. Its adaptation to the terrain, its green areas, and the layout of its roads are resources that do not seek to camouflage the residential area but to create a whole with the environment. Thus, each of its villas, including the chalets with 4 bedrooms and 4 bathrooms, is designed to blur the boundaries between the interior and exterior, always with the Mediterranean as a backdrop.

The concept of El Edén is a rethinking of the traditional resort, combining the privacy of each home with the more social character of the sports club. It features different wellness and fitness areas and a spectacular pool.

The natural richness of the surroundings has led us to create architecture that is fully integrated into the landscape. We have respected the native vegetation and the original topography so that El Edén becomes an indissoluble part of the extraordinary coast of Málaga.

Light, light, and more light. Thanks to the large windows, we can modulate the interiors and include the exterior spaces. We only need to slide the doors to create a large social space that includes the

living room, kitchen, and garden.
